COMICCRAFT — CUSTOMER JOURNEY MAP

==========

STAGE 1: AWARENESS

Priya finds ComicCraft through a friend or a search for "AI comic maker".

Emotion: Curious, hopeful.

STAGE 2: CONSIDERATION

She sees the simple form with story prompt, character, setting, tone,

and art style fields. It looks easy to use.

Emotion: Interested, ready to try.

STAGE 3: INPUT

She fills the form: "A brave fox exploring an enchanted forest",

character "Fox", setting "Forest", tone "Dramatic", style "Anime".

Emotion: Focused and creative.

STAGE 4: GENERATION

She clicks Generate Comic. The system calls Gemini to outline the

5-panel story, then generates narration, then creates 5 images via

Pollinations.ai. Total time: 30–60 seconds.

Emotion: Anticipating, slightly impatient.

STAGE 5: PREVIEW

The comic preview page appears with all 5 panels: each with a title,

an AI-generated illustration, a scene description, and full narration.

Emotion: Delighted, impressed.

STAGE 6: EXPORT

She uses the browser's save/print feature to create a PDF, or the built-in download option for a formatted comic PDF.

Emotion: Satisfied, proud.

STAGE 7: SHARING

Priya shares the comic with friends on Instagram or submits it for her college assignment.

Emotion: Confident, creative.

PAIN POINTS AVOIDED

- No drawing skill required
- No paid subscriptions
- No complex tools or Photoshop
- No need to hire an artist
